**Objet:** Declaration for air transport of Elisée 150 equipped with an internal battery and an external battery pack

To whom it may concern,

According to the 55th Edition of the IATA Dangerous Goods Regulations, subparagraph 2.3.5.9, we declare that **Elisée 150** equipped with the **internal Lithium-ion battery** enclosed in the device and with the **external Lithium-ion battery pack** attached to the device, is compliant with the following requirements:

- each battery has successfully passed the tests of UN Model Regulations, Manual of Tests and Criteria, Part III, subsection 38.3;
- each battery has a power of less than 100 Wh;
- each battery has an equivalent lithium content of less than 8g;
- each battery is, by design, protected from short-circuits when used with Elisée 150;

and is therefore suitable for the air transport.
